

PUBLIC LEADER

SIXTH YEAR.

MAYSVILLE, KY., THURSDAY, SEPTEMBER 30, 1897.

ONE CENT.

LARGEST IN THE CITY.

Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising "bait" free any more than a merchant can give his customer free gifts of goods or shoes. A newspaper is a legitimate business concern. Its columns are its stock in trade, and advertisements should be paid for, no matter in what part of the paper they appear.

We Have So Many Good Things

In our different lines to show you that we cannot call your attention to all of them in this ad. We will name a few of our leaders that we want you to call for and judge their merits:

First—Our New Covert Cloth English Top Coats,
a very swell garment, exclusively confined to us. Prices range from \$10 to \$22.50.

Second—Our Custom-Made English Cheviot and Scotch Wool Suits.

We have them in the very latest designs, both cut and style of cloth. This line we think the greatest we ever had. You will think so, too, when you see it. They range in price from \$9 to \$25.

Third—Our Clay Worsted Suits

Are the best values imaginable. We bought them long before the tariff bill went into effect, and are enabled to sell them at much less than the manufacturers can make them for now. They range in price from \$7.50 to \$20.

The latter price represents our custom-made, and would cost you \$35 elsewhere.

The Smith & Stoughton

SHOES

Will soon be as well known here as Hechinger & Co's Clothing. We need not go into details about them. Look at our window display; it tells the story. Although but a few days in the Men's Shoe Business, the reputation of our footwear has gone abroad to the extent of keeping our Shoe Department Clerk and assistant busy all day last Saturday. Come in and try on a pair of them. Respectfully,

HECHINGER & CO.
LEADERS IN FINE CLOTHING AND SHOES.

The most striking trade effect of cheaper silver has been the astonishing increase in the variety of articles made of the metal. The making of plated ware, which in former years was such a flourishing industry, has been greatly crippled. The genuine article has got within the reach of almost everyone.

Paving blocks made of meadow grass are now manufactured. Their inventor was a clergyman, and the meadow grass, impregnated with oil, tar and resin, is pressed into blocks and finally bound with iron straps. The advantage claimed for these blocks is that they are noiseless and elastic, resist wear well and are impervious to heat and cold.

The great wall of China was recently measured by Mr. B. B. Clark, an American Engineer. His measurement gave the height as eighteen feet. Every few hundred yards there is a tower twenty-five feet high. For 1,300 miles the wall goes over plains and mountains, every foot of the foundation being of solid granite, and the rest of the structure of solid masonry.

A sample of cloth one inch square was recently sent to the Androscoggin Mill in Lewiston, to be copied. In a week the looms were turning it out by the yard. The little sample is placed under a glass and magnified. The artist study it and then set the machines to make it. The finest cloth is dissected before it is copied, and only men of rare mechanical skill can do it.

Yellow Fever Germs.

breed in the bowels. Kill them and you are safe from the awful disease. Cascarate destroy the germs throughout the system and make it impossible for new ones to form. Cascarate is the only reliable safe-guard for young and old against Yellow Jack. 10c, 25c, 50c. All druggists.

ATTENTION, REDMEN!

The Meeting Tonight An Important One—All Members Expected.

It is easy to tell by setting aside your urine for twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys. When urine stains linen it is evidence of kidney trouble. Too frequent desire to urinate, scanty supply, pain or dull ache in the back is also convincing proof that the kidneys and bladder are out of order.

There is satisfaction in knowing that the great remedy, Dr. Kimer's Swamp-Root, fulfills every wish in relieving weak or diseased kidneys and all forms of bladder and urinary troubles. Not only does Swamp-Root give new life and activity to the kidneys—the cause of trouble, but by treating the kidneys it acts as a tonic for the entire constitution. If you need a medicine take Swamp-Root—it cures. Sold by druggists, price fifty cents and one dollar, or by sending your address and the name of this paper to Dr. Kimer & Co., Binghamton, N. Y. you may have a sample bottle of this great discovery sent to you free by mail.

Willardette Tribe No. 2, I. O. O. F. M., will hold an Important meeting at their Hall in the Cox Building this evening at 7 1/2 and 8 1/2 o'clock.

All members are requested to leave their squaws and papooses long enough to attend this meeting, as new mixers of war paint will be chosen.

BALLENGER, Jeweler.

Hereafter house numbers are to be obligatory in New York. The numbers are to be in white figures, not less than two inches high, on a background of blue porcelain or similar material. They are not to be placed on doors, but on the walls of buildings, between the front door and the nearest window.

London has followed the example of Paris in paying waters only in tips. A man employed in a first-class hotel, who was arrested recently for overcharging guests, gave as an excuse that he was provided in the morning with \$20 in checks and had to make the sum good by evening. He received no wages and was charged for breakage. His character was good, and the truth of his statements was not denied.

Yellow Jack Killed.

Cascarate, Candy Cathartic kills Yellow Jack wherever they find him. No one who takes Cascarate regularly and systematically is in danger from the dreadful disease. Cascarate kills Yellow fever germs in the bowels and prevent new ones from breeding. 10c, 25c, 50c. All druggists.

IT IS EASY TO TELL.

People who fail to look after their health are like the carpenter who neglects to sharpen his tools. People are not apt to get anxious about their health soon enough. If you are "not quite well" or "half sick" have you ever thought that your kidneys may be the cause of your sickness?

It is easy to tell by setting aside your urine for twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys. When urine stains linen it is evidence of kidney trouble. Too frequent desire to urinate, scanty supply, pain or dull ache in the back is also convincing proof that the kidneys and bladder are out of order.

There is satisfaction in knowing that the great remedy, Dr. Kimer's Swamp-Root, fulfills every wish in relieving weak or diseased kidneys and all forms of bladder and urinary troubles. New Tenants of the White House.

The first and only pictures Mrs. McKinley has had taken in ten years appear in the October number of The Ladies' Home Journal. They form part of a series of new and unpublished photographs of the new occupants of the White House. Mrs. McKinley wore for her picture her inaugural ball dress of silver and white brocade, at the special request of the President, who thought it particularly becoming. The excellent portrait of Mr. McKinley in his office was taken in June. The other pictures in the series show the many changes in the arrangements and furnishings of the rooms and grounds, made by the President and Mrs. McKinley.

SPANISH CRISIS.

Cabinet Tenders Its Resignation,
Which is Accepted.

Gen. Azcarraza Asked to Continue in
Office Until the Trouble is Over.

The Liberal Leader Will Be Asked to Form
a Cabinet—Sen. Sagasta in Favor of
Succeeding Capt. Gen. Weyler and
Granting Autonomy to Cuba.

MADRID, Sept. 30.—The cabinet
tendered its resignation Wednesday evening.
The Queen has accepted the resignation,
but has asked Gen. Azcarraza
to continue in office until the solution
of the crisis is found.

Her majesty will summon the leaders
of the various parties and the presi-
dents of the chambers Thursday to con-
sult as to the situation. Sen. Sagasta
has been telegraphed for, and it is be-
lieved that the liberal leader will be
asked to form a cabinet.

The ministry, whose resignation has
just been announced, was constituted as
follows:

Prime Minister and Minister for
War—Gen. Marcello de Azcarraza.

Minister for Foreign Affairs—Duke
of Tetuan.

Minister of Marine—R. Adm. Don
Jose M. Beranger.

Minister of Finance—Don Juan Na-
varro Rivero.

Minister of Commerce and Agricul-
ture—Don Aureliano Linares Rivero.

Minister for the Colonies—Don To-
mas Castellano.

Minister of the home department,
Don Fernando no-Cosydon.

United States Minister Woodford,
the duke of Tetuan and the president of
the senate, the Marquis Pazo de
Arce, held a long session Wednesday
and Gen. Woodford presented to
the United States legation. Owing to
the cabinet crisis the Cuban paper
have been postponed.

It is said that Sen. Sagasta is in
favor of succeeding Capt. Gen. Weyler
and of granting autonomy to Cuba im-
mediately.

Sen. Sagasta will probably be min-
ister of foreign affairs in the new cabi-
net.

On August 27, last, it was announced
that Sen. Sagasta, the liberal leader,
had made a fresh declaration on the
political situation. He said affairs
were daily growing worse in Cuba
and continued serious in the Philip-
pine islands. He added that a
liberal ministry would be ready
to apply autonomy to Cuba, again,
on September 14.

Sen. Sagasta, referring to the Cuban insurrec-
tion, said the uprising instead of dying
out was spreading over the island, and
that the situation in the Philippine
Islands was serious. He asserted that
the Carlist propaganda in Spain could
not be viewed with indifference, and
he expressed the belief that a recon-
ciliation between the political parties
in Spain was impossible so long as the
conservatives were in power.

Sen. Sagasta, in conclusion, re-
marked:

"In my opinion the Cortes will exist
but if they do meet their exist-
ence is ephemeral."

Regarding the relations between the
United States and Spain, the liberal
leader refused to express himself.

LONDON, Sept. 30.—A dispatch to
the Daily Mail from Madrid says:

"The solution of the crisis depends
upon the policy to be adopted toward
the United States."

"Liberal politicians declare that
they will stoutly resist America's pre-
tensions."

"Gen. Azcarraza, in a long interview
with the queen regent Wednesday ex-
plained the situation. It is believed
that he asked her majesty if she was
ready to confirm the government in
necessary powers in view of the attitude
of the United States. After the
interview he announced that he had
tendered his resignation. Shortly
afterward the premier tendered the
resignation of the entire cabinet."

Bryan Congratulates Williams.

Boston, Sept. 30.—George Fred Wil-
liams, democratic nominee for governor,
Wednesday received the following tele-
gram: "Lincoln, Neb.—Accept congratu-
lations upon your nomination. Mas-
sachusetts democracy has done nobly.
The Chicago platform is being reiter-
ated by events. The fight for finan-
cial independence will yet be won. The
will fail with the gold standard. Your
plank against retirement of greenbacks
was timely. Strength to your arm and
success to your banner. W. J. Bryan."

Not Yellow Fever.

HORSTON, Sept. 30.—The two
physicians who were sent to Victoria
Tuesday night to investigate an alleged
epidemic of yellow fever returned
Wednesday and will report to the state
health officer that it is a case of com-
mon dengue fever. Towns adjacent to
Victoria have raised the quarantine.

Dr. Nansen Coming to America.

LONDON, Sept. 30.—A dispatch to
the Daily Chronicle from Christiania says
that Dr. Nansen, the explorer, will
leave on October 6 for the United
States, where he expects to deliver 50
lectures for \$65,000, in addition to a
percentage of the receipts.

A Present for President McKinley.

LONDON, Sept. 30.—Some corre-
spondent of the Standard says that the
pope has sent to President McKinley a
copy of the life of St. Francis Xavier,
the founder of the so-called Apparition
Borgia at the Vatican, which were re-
cently restored.

DISEASE SPREADING.

Wednesday Was a Record Breaker in the
Number of New Yellow Fever Cases in
New Orleans.—The Plague at the Point.
New Orleans, Sept. 30.—Wednesday
was a record breaker in the number of
new cases of yellow fever reported
while the death toll equalled in number
those of any day since the yellow fever
was first discovered in the city.

There are various reasons given for
the spread of the disease, but the prin-
ciple ones are two—that the weather
turned warm again, and owing to the
march of the board of health the board
of health has had some difficulty in get-
ting every house as closely guarded as
was possible when the cases here were
few in number and the framed of
ficials of the board were station-
ed about the quarantined houses.

The fact, however, that there has been
small and that the chances of an
epidemic have been constantly growing
less have made the general public
somewhat careless and there has been
increasing friction between the quar-
antined people and the authorities. Im-
promised inmates of houses have been
going over back fences and sneaking
out of side doors in order to be uncon-
fined and the result has been that the
more persons have been scattered rapidly
developed in these warm days.

Four deaths and 37 new cases were
reported Wednesday.

NEW ORLEANS, Sept. 30.—Twenty-
four new cases of yellow fever were re-
ported here Wednesday—14 whites and
10 colored.

Nine new cases of yellow fever and
one death, that of Mrs. N. O. Franklin,
were reported at Seranton, Miss.,
Wednesday.

Dr. Watts, of Brownsville, reports
two new cases at that place—Miss Mary
Hall and Theo. Taylor, also a child
of others who have had the fever for
some time. A child named Taylor died
of the fever there Wednesday.

ALABAMA, Sept. 30.—Tuesday's
rather big report of 10 new cases was
offset Wednesday by a small report of
one case. The only death in the home en-
ding at noon was Brother Sphorion at
the Industrial Gardens, reported
Tuesday night.

statement that the immigration ques-
tion raged between Japan and Hawaii
is likely to be shortly settled without
arbitration, has thrown a peaceful
aspect around American questions in
the Pacific.

This cheering news has been com-
municated to the state department by
Minister Sewall, stationed at Honolulu,
whose mail reports have just reached
the department. The most important
statement made by Mr. Sewall is that
the Hawaiian-Japanese authorities
have estimated that \$100,000 in gold
will settle the claims of the latter
against the Naniwa authorities as a result
of the rejection as immigrants of some
1,200 immigrants who came to the is-
lands last spring. Heretofore Japan
has sheltered herself behind the state-
ment that the most adamant first the
"principle of monetary liability," and
when this admission has been made she
would be willing to discuss the amount
that should be paid to save her dig-
nity had suffered.

The fact that the Mikado is now will-
ing to discuss the amount that should
be paid is due, instead of the principle,
means, in the opinion of the State
department officials, that if necessary
the Japanese authorities can rid themselves
of a troublesome question before Con-
gress convenes, so that Hawaii may
present herself for admission to the
Union free from foreign questions,
which might otherwise be a stumbling
block in her way to coalition with the
United States.

Of course it is optional with Hawaii
to pay this amount and settle the ques-
tion. The State authorities never ad-
mitted that they were liable to pay a
monetary indemnity as a result of the
exclusion of the Japanese immigrants,
and they may feel that they may feel
they pay \$100,000 in gold to Japan,
such action may make them liable
to the future other immigrants be re-
jected. This would be an especially
serious matter in case union with the
United States were not accomplished.
It was suggested by a state department
official, however, that Hawaii might
follow the course pursued by the
United States in case of
outrages upon foreign citizens
in this country. It is usual
with the government to pay an indemnity
to the families of the victims, with the
understanding, however, that such action
has no reference whatever to the ques-
tion of liability. State department
officials, however, would be glad to see
the controversy finally disposed of be-
fore the Senate takes the annexation
treaty under consideration.

The departure of the Naniwa was an-
nounced both by Mr. Sewall and Rear
Admiral Miller. The latter has in-
dicated himself that the Japanese cruiser
has really gone to Japan, and this be-
lieve the cruiser will be ready to leave
for home immediately after the
arrival of the gunboat Wheeling with
her orders to return, when the Naniwa
has left. The Baltimore, which was
placed in commission on October 1 and
will be ready to receive her officers and
crew at the moment the Philadelphia
drops anchor in the harbor.
